MOTHER IN ISRAEL

Passes Away at Her Home in Ebanks After Long Illness

Mrs. L. C. Morris, one of the best known and most beloved women in the southern part of the county, passed away at her home near Ebanks on December 30, 1911. She was 77 years of age, 11 months and 15 days and had been ill for a long time. Though afflicted for many years she never murmured but bore her suffering with Christian fortitude, always expressing her willingness to meet her Master. She leaves a broken-hearted husband and five children, Mrs. Ida B. Ambrose, of Cincinnati, L. A. Morris, of Franklin, Ind., Mrs. Nettie M. Jacobs, of Ebanks, John C. Morris of Oneida, Ind., and Eddie F. Morris, of the same place, one daughter, Ella T., having passed on before her mother on July 10, 1886. She is also survived by 13 grandchildren and nine great grandchildren, and a host of friends and loved ones who mourn that she is no more.

Mrs. Morris joined the Christian church at the age of 16 years and has been a faithful member ever since. Her funeral was conducted by her beloved pastor, Rev. R. E. Todd, who paid to her memory most loving tribute and to her husband and children he gave words of cheer and comfort, urging them to live so as to be able to meet her that has passed on before. Song services were conducted by Rev. G. D. Thompson and children, which was of cheer and comfort to her loved ones. Interment was in the Ebanks cemetery, January 1st.

The prayer of the writer is that this long life of patience may strengthen those she left behind to a consecrated Christian life that they may meet as one unbroken family in the Great Beyond, where there is no more suffering, parting or pain. Lovingly yours

H. N. JACOBS.

### FORMER LINCOLN COUNTY MAN HURT

A Gainesville, Fla., paper tells of a serious accident to a former Lincoln county man as follows: "Capt. J. J. Long, for several months employed as a conductor on the Florida Railroad, was brought to his home in this city Monday night suffering from injuries sustained in a wreck which occurred between Live Oak and Mayo Monday morning. Conductor Long was seated in the baggage car when the accident, which is attributed to a broken flange on one of the car wheels, occurred. When the car jumped the track it resulted in the spreading of the rails and several cars were turned completely over. Conductor Long was pinned under several trucks when the baggage car turned turtle, and the iron safe used for storing valuables fell upon him, dislocating the left shoulder and otherwise injuring him. Several others were hurt, but no one was killed, which is considered a miracle owing to the gravity of the situation.

Medicines that aid nature are always most effective. Chamberlain's Cough Remedy acts on this plan. It allays the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Thousands have testified to its superior excellence. Sold by G. L. Penny.

**MRS. MCGILL BROKE DOWN**

Gives the Real Facts In Regard to Her Case and Tells How She Suffered.

Jonesboro, Ark.—"I suffered a complete break down in health, some time ago," writes Mrs. A. McGill, from this place. "I was very weak and could not do any work. I tried different remedies, but they did me no good.

One day, I got a bottle of Cardui. It did me so much good, I was surprised, and took some more.

Before I took Cardui, I had headache and backache, and sometimes I would cry for hours. Now I am over all that, and can do all kinds of housework. I think it is the greatest medicine on earth."

In the past fifty years, thousands of ladies have written, like Mrs. McGill, to tell of the benefit received from Cardui.

Such testimony, from earnest women, surely indicates the great value of this tonic remedy, for diseases peculiar to women. Are you a sufferer? Yes! Cardui is the medicine you need.

We urge you to try it.

## FINANCIAL CONDITION OF CITY OF STANFORD, KY.

## MAKES A RECORD

Jack Beazley Leading Gasoline Engine Agent in The State

J. G. Carlton, district manager for the International Harvester Company who has just moved his headquarters from Stanford to Lebanon, says that

Jack Beazley, the local agent, has sold more International gasoline engines in Lincoln and his territory than any other International Agent in the state. Mr. Beazley has sold nine engines in this vicinity in the past month, and is still pushing more sales. He says that he has found his advertisement in the Interior Journal has helped him greatly in making these sales. The confidence we're voted out he had to do twice as much work and get half as much pay. "To-day" he said. "I do half as much work and get twice as much pay." Do you know the reason why? When the saloons were open many children were only half fed and half clothed, and, of course, there was much sickness and the father could not pay the doctor because he put his money in the saloon. When the saloons were voted out, the children were fed and properly clothed. Moreover, the father had money to pay his bills. It pays to vote "dry."

There are those who say otherwise; but they are most undoubtedly wrong.

A doctor who had lived two years in a town when it was "wet", and who also had the privilege of living two years in the same town when it was "dry", said that before the saloons were voted out he had to do twice as much work and get half as much pay. "To-day" he said. "I do half as much work and get twice as much pay." Do you know the reason why? When the saloons were open many children were only half fed and half clothed, and, of course, there was much sickness and the father could not pay the doctor because he put his money in the saloon. When the saloons were voted out, the children were fed and properly clothed. Moreover, the father had money to pay his bills. It pays to vote "dry."

The reopening of saloons in Stanford would give a black eye to our splendid school. Now, people are sending their children to Stanford for miles in every direction. When drunk men frequent our pikes parents will not be willing to send their boys and girls as they now do.

Middlesboro has saloons and as a result there have been seventy six men killed in Bell county in the last two years.

In the last two years there have been thirty two election held in Kentucky to bring saloons back where they had been voted out and in only two cases have the liquor people succeeded, viz: Somerset and Madison.

In Gallatin county, fifty two per cent of the voters signed a petition to hold an election to vote saloons back and the "dry" won by nearly 900 majority and the county has only 4,000 population.

## TEMPERANCE COLUMN

This space is engaged by the Temperance Committee of Lincoln County.

A good answer to a very familiar objection is given in the following article in one of the religious weekly papers: "You can't make people moral by law." Of course not. Neither can you make them healthy by law, but this is no argument against law. Laws are not designed to make men either moral or healthy, but to protect them in person and property, in their homes, and in all their interests. Doing this they promote morality by punishing evil doers and restraining those who would do evil. They also establish conditions favorable to morality and health.

A pure-food law may not compel a man to eat healthful food, but it prevents men selling him under false labels, what is unhealthful. A law against cigarettes does not take away a boy's appetite for him, but it prevents men selling them to him and so protects subjects from the formation of the appetite. A law against saloons may not make drinking men temperate, but it creates an environment favorable to temperance.

The effect of good laws is to make it easier to do right and harder to do wrong. We have seen a statement that in a certain town in Maine the present generation of young men have never seen a saloon except as they were away from home. There are no drunkards in the place. The people have not been made sober and moral by law, but the conditions under the law have been favorable to sobriety and morality.

It is so everywhere and with all good laws. A law against gambling houses protects against the formation of the gambling habit. Laws against the social evil, the sale of dangerous drugs, prize fighting and other brutal sports all create, as they are enforced, a healthful environment and atmosphere and so promote morality.
